Isaiah 55-56

The Lord who is our Healer, is the Lord from the heavens of God. Although He is currently in the present heavens, the things He is giving are of the heavens of God. Angels are beings of the current heavens, but He is Lord of the heavens to come; the heavens that exist in God. The things He is giving cannot pass away; they endure forever. There are substances for cleansing and healing in His hands. You can't come to Him and not be healed of your soul diseases.

The challenge is that not many in the church are currently coming to Him for their healing. He doesn't just remove the things Satan planted in men; He gives us the things that are in God. Some of us have already started carrying heavenly properties in our souls.

Last Sunday's ministration by our Daddy in the house, *Pst. Laide Olaniyan*, was too much of a blessing to me. Please, let's listen to it again. He took time to shine light again on some of the things we were taught at the convention. Our physical bodies can come into much life by reason of what the soul has trapped. There is a place for learning how to receive our healings; confessing the Word. That is very potent.

Cancer, malaria, HIV, and all the diseases of this world came as a result of what the soul acquired from the devil. We need to receive the things the Great Physician of the heavens is giving to be made whole, even in our bodies. Meekness, lowliness, forgiveness, joy, love, kindness, and other works of righteousness might look weak before men, but they are the very tools the Great Physician uses to supply life to the souls and bodies of believers.

The true intention of the Great Physician of the heavens is to raise men who will reign in life with Him eternally. You can't reign in life when you have not been made free from sin, death, hell, and the grave. We need to follow Him for our total liberty from the things holding us bound.

Prayers:

Father, disconnect me from things that are wrongly connected to my soul. Let my heart and my mind be properly connected to the great physician of the heavens.

Confession:

I will seek and look for the things the great physician of the heavens is offering. I want His properties in my soul, so I will never be tired of pursuing after Him until I'm totally like Him in all things.
