NEW TESTAMENT PLAN

1 Timothy 5-6

1 YEAR PLAN

Ezekiel 18-19

WARRING WITH LIGHT

Text: EPHESIANS 5:13-17

One of the greatest spiritual warfares a child of God will ever engage in is the warfare of abiding in the light. God is Light, and in Him, there is no darkness at all. Out of the fullness of His Light, God spoke physical light into existence, creating it as a tangible shadow of the true light that He is. In the physical realm, light governs human existence; we need light to see, to walk, and to work. Truly, human life cannot function without light.

However, the light that defines God is not merely a visible, spiritual brightness. While God can manifest light; it is not the essence of the Light He is. Even angels can manifest tangible spiritual brightness, yet they are not light in the way God is Light. What truly makes God Light is His inward configuration: everything within His nature is pure light.

Wisdom and understanding are the key drivers of God's light. Bound within His nature are love, holiness, righteousness, peace, joy, kindness, longsuffering, compassion, and mercy. The primary reason we do not naturally walk in the fullness of God's ways is that Satan and his forces have systematically fed our human nature with dark properties.

While our regenerated human spirits became light the moment we were saved, our hearts and minds were not instantly transformed into light. It requires persistent warfare to bring the soul fully into the light. Our greatest tool in this warfare is light itself, operating through divine wisdom and spiritual understanding.

Any believer who tries to confront Satan and his cohorts without the wisdom and understanding given by the Spirit of God is already defeated before he starts warring. Human reasoning cannot combat against their darkness; it takes light proceeding directly from the realm of God to disarm and defeat the enemy.

This is why the Apostle Paul prayed fervently for the Colossian and Ephesian brethren to be filled with the wisdom and understanding of God in Christ. Every believer ought to pray this exact prayer continually until our hearts and minds are fully submerged in that same spirit.

Further reading: Ephesians.1:16-18 Colossians 1;9 James 1:5

Prayers:

Father, fill us with the spirit of wisdom and understanding. Help us not to be comfortable with where we are in our light acquisition. Show us mercy Lord.

Confession:

I will seek an upgrade in light daily. I subscribe to the fresh supply of wisdom and understanding the Holy Ghost has for me, to become better than yesterday until I am fully like Jesus.

Song suggestion: No light so bright
